DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d) and received on 3/5/2004, which papers have been placed of record in the file.

Allowable Subject Matter

Claims 24, 25, and 27-31 are allowed.

The following is an examiner's statement of reasons for allowance: The applicable prior art discussed below does not disclose, nor does it suggest an electrical waveguide being electrically coupled to the electroabsorption modulator contacts, where electrical signals are provided for modulation of optical signals from the laser portion.

RSP As these limitations of claim ²⁷~~28~~ are not taught by the prior art discussed in detail below, RSP it is the examiner's opinion that independent claim ²⁷~~28~~ and its dependent claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

RSP The prior art ^{previously}_A made of record and not relied upon is considered pertinent to applicant's disclosure. Ramdane et al in the article "Monolithic Integration of Multiple

Quantum Well Lasers and Modulators for High-Speed Transmission" teaches an electrooptical system comprising a semiconductor substrate, both a first and second layer located within the Multiple Quantum Well Active Layer, a covering layer over the second layer, where an electroabsorption modulator is placed between a laser portion and an optical amplifier.
